### Location

Mexico City

## Education

### Taras Shevchenko National University of Kiev

2012

**Bachelor in Mathematical Analysis**

2013

**Master in Mathematical Modeling**

## Technologies

- Javascript (ES6) / TypeScript;
- React.js / Redux / React Native;
- GatsbyJS / Next.js / GraphQL;
- Material UI / Tailwind CSS;
- OOP / Rest API;
- HTML5 / CSS3 / SCSS / Bootstrap;
- Node.js / Webpack;
- React Unit Testing · Jest · Enzyme;
- Animations;
- GIT;
- Agile and SCRUM methodologies;

## Experience

### Oct 2021 - Apr 2023

Ballast Lane Applications | Boston, Massachusetts, USA

#### Front-End React Developer

- Developed and implemented responsive user interface components using **React concepts** to develop reusable and scalable code;
- Used the latest technologies such as **Next.js**, **Typescript**, and **Gatsby** to build fast and modern platforms to meet client's needs;
- Used **GraphQL** queries and mutations for request data to populate the UI on the app/platform;
- Created a customizable dashboard structure where widgets can be added, removed, and reorganized. New chart widgets can be created by using such React libraries as **Highcharts**, **React Hook Form**, **Sweet Alerts** and etc.;
- Migrated code base from Angular (old version) to React;
- Created animated components using **Motion Framer** and **Lottie** animated images;
- Covered code with unit tests by using **React Testing Library** and **Jest**;
- Participated in code reviews and contributed to the development of best practices within the team;

### Jan 2020 - Oct 2021

Kitsoft Ukraine | Kyiv, Ukraine

#### Javascript Developer

- Overseeing implementation, business logic, and process transitions through **BPMN** and **JavaScript**.
- Development of technical solutions, including UX / UI design - interface design.
- Working with configuration files in **JSON** format.
- Setting up and debugging processes in the visual interface, manual testing of existing business processes;
- Setting up data exchange and integration with external systems and registries.
- Maintain and develop high-load web portals by using **JavaScript**, **Webpack**, **Npm**, **SASS/SCSS**, **HTML5**, **Bootstrap 3/4**, **BEM**;
- Integration of layouts with CMS program code;

### Aug 2019 - Jan 2020

Freelance

#### Front-End Developer

Worked on various freelance projects developing websites, e-commerce stores and applications using the following technologies:

- HTML5, BEM, CSS, SCSS
- JavaScript, Slick, ReactJS, Redux
- Webpack, npm
